ARE EVIDENCE THAT the blood is wrong, and that nature is endeavoring to throw off the impurities. Nothing is so beneficial in assisting nature as Swift's Specific (S. S. S.) TO INVESTORS.

I desire to call the attention of capitalists and others desiring a good investment, to the excellent opportunity I now offer them for investing in some of the finest mineral and timber lands in Southwest Virginia and West Virginia. These lands are located chiefly on the Norfolk and Western Railroad on the Norfolk and Big Stone Gap, and on the extension via the Elk Horn to the Ohio River. I have also at my disposal, located as above, large bodies of timber, such as walnut, poplar, oak of every variety, hickory, etc., which I will sell without the lands on very favorable terms.
The popular timber is located as follows: 40,000 trees in Pike county, Kentucky; 30,000 in Buchanan county, Virginia; 25,000 in Russell and Tazewell counties, Virginia. 70,000 of these trees are in easy access to floating waters, which will float them to Catlettsburg, Ky. 25,000 are in close proximity to the Clinch Valley division of the Norfolk and Western railroad. This timber is of superior quality, carefully selected and owner has a perfect title to the same, which he will guarantee.
In addition to the above I have some of the most desirable residence and business lots in the new and thriving towns of Bluefield and Graham. Located at the junction of the Clinch Valley division of the Norfolk and Western railroad and its numerous coal fields of West Virginia, they promise to be among the most important towns on the Norfolk and Western system, and are destined to become one town in the near future.
